SUMMARY

Bachelor of Computer Science (Software Engineering) (Hons.) graduate from Universiti Tenaga Nasional (UNITEN) with a CGPA of 3.86 and practical experience in web development, software engineering, data analytics, and software testing. Skilled in Laravel, PHP, MySQL, Python, Java, C++, SQL, and Tableau, with hands-on exposure through internship, academic projects, technical competitions, and professional certifications. A motivated and adaptable graduate with strong analytical, problem-solving, teamwork, and communication skills, seeking entry-level opportunities in Software Engineering, Software Development, Web Development, Data Analytics, Business Intelligence, or related technology fields.

EDUCATION

Bachelor of Computer Science (Software Engineering) (Hons.)

Universiti Tenaga Nasional (UNITEN), Putrajaya — October 2023 – October 2026

- CGPA: 3.86

Foundation in Computer Science

Universiti Tenaga Nasional (UNITEN) — August 2022 – September 2023

- CGPA: 4.00
- MUET: Band 4

Sijil Pelajaran Malaysia (SPM)

SBPI Batu Rakit, Kuala Nerus — 2017 – 2022

- Result: 6A, 2A-, 1B+, 1B, 2C+

INTERNSHIP EXPERIENCE

Software Development Intern

Infidev Sdn. Bhd., Kuala Terengganu — June 2025 – September 2025

- Developed and enhanced web applications using Laravel, CodeIgniter, PHP, MySQL, and WordPress.
- Implemented authentication, CRUD operations, API integrations, shopping cart and checkout functionalities with ToyyibPay Sandbox.
- Performed debugging, database troubleshooting, routing fixes, and API testing using Postman.
- Assisted with UI/UX development using Figma and Elementor and applied Git/GitLab workflows.
- Supported system improvements based on client requirements and participated in client meetings.

FINAL YEAR PROJECT

TalentBloom – School Talent Management System

- Developed a Laravel, PHP, and MySQL web-based system for managing students' academic, sports, leadership, talent, and co-curricular achievements.
- Implemented achievement tracking, award categorization, points management, dashboards, and ranking functionalities while applying system analysis, database design, testing, and debugging.

ACADEMIC PROJECTS

Vehicle Registration & Traffic Trends in Malaysia (2020–2026)

- Analyzed vehicle registration and traffic congestion datasets and developed interactive Tableau dashboards to visualize trends and key insights.

Mental Health Prediction – Machine Learning

- Developed a Python-based machine learning model to predict employees' potential need for mental health treatment.

Bus Ticketing System
- Designed a centralized and cashless bus ticketing system prototype using Figma, applying UI/UX and Human-Computer Interaction principles.

Library Management System
- Developed a C++ and Java-based library management system for book records, borrowing, returns, and due-date tracking using Object-Oriented Programming and Data Structures & Algorithms concepts.

PROFESSIONAL CERTIFICATIONS

Data Analytics Essentials
Cisco Networking Academy | February 2026
- Covered data preparation, statistical analysis, SQL, Tableau, and data visualization.

Foundations of Software Testing and Validation
University of Leeds, Click Start & Institute of Coding via FutureLearn | February 2026
- Covered software testing, validation, quality assurance, SDLC, test planning, and defect detection.

Microsoft AI for ALL
Microsoft & Pepper Labs | February 2026
- Covered artificial intelligence, generative AI, and responsible AI practices.

CCNAv7: Introduction to Networks
Cisco Networking Academy | March – July 2024
- Covered network fundamentals, protocols, configuration, and Cisco Packet Tracer.

TECHNICAL COMPETITIONS

Pitch Craft: Capture The Flag (CTF)
Universiti Tenaga Nasional (UNITEN) | 2025
- Participated in cybersecurity challenges involving technical analysis, strategic thinking, and problem-solving.

CLIQ Divide Capture The Flag Competition
Universiti Tenaga Nasional (UNITEN) | 2025
- Participated in CTF challenges, strengthening cybersecurity awareness and technical problem-solving skills.

ACHIVEMENTS AND INVOLVEMENTS

- Completed Pensijilan Tahfiz JAKIM UNITEN – Successfully memorised all 30 Juz' of the Al-Quran while pursuing Software Engineering studies.
- Gold Winner – Merdeka Marvels, Universiti Tenaga Nasional (UNITEN), 2024.
- Registration Committee, ASEAN GeoAI Fusion 2026 Bootcamp 1, Universiti Tenaga Nasional (UNITEN), 2026.
- Pickleball Linesman & Fun Run Secretariat, MSSU 2025 (Minggu Sukan Sahabat UIC), 2025.
- Logistics Committee, Social Work Programme, Hospital Pakar Kanak-Kanak UKM, 2025.
- Programme Committee, Festival Nasyid Ihtifal IPT Kebangsaan, Universiti Tenaga Nasional (UNITEN), 2024.
- Participant, Malam Kesenian Islam by Sahabat UIC, Universiti Tenaga Nasional (UNITEN), 2024.

SKILLS

- **Soft Skills:** Problem-Solving, Critical Thinking, Communication, Teamwork, Time Management, Adaptability, Analytical Thinking, Leadership
- **Programming Languages:** Python (Proficient), Java (Proficient), C++ (Proficient), PHP (Proficient), MySQL (Proficient), HTML, CSS, JavaScript
- **Frameworks & Development:** Laravel (Intermediate), CodeIgniter, WordPress (Intermediate), REST API, CRUD Operations, Git, GitLab
- **Data Analytics & BI:** Tableau (Intermediate), SQL, Data Analysis, Data Visualization, Dashboard Development, Microsoft Excel
- **Software & Tools:** Visual Studio Code (Intermediate), Microsoft SQL Server (Intermediate), Cisco Packet Tracer (Intermediate), Microsoft Project (Intermediate), Microsoft Office Suite (Proficient), Canva (Proficient), Figma, Postman
- **Languages:** Bahasa Malaysia (Native), English (Proficient)
